

Dear Sirs:

I am responding to you about the rule changes to the LPFM and FM translator services.

If I am correct, I believe that if the LPFM is given priority over FM stations I would be losing the only channel I and my family listen to.

K-Love is a very important service to our community, as they are the only ones giving us genuine spiritual service and answers. My family would be greatly hurt with this change. Most stations do not allow our kids good choices in music and wholesome encouragement.

They have a very large listening audience here in Glenwood Springs and we would hate to loose them.

It would be in the public's interest to leave the status as is and allow these stations like K-Love on the air in our areas.

Collin Kenney and Family
